### Verdener Auction Online – Foals

**Verden. The virtual auction curtain of the Verden Foal Spring opened for the fifth time. The highest bid of 9,000 Euros was placed for the colt Outtake. The average price for the 13 colts and ten fillies was 6,080 Euros.**

Anything but an "outtake" is the pedigree of the Ogano Sitte-son Outtake (breeder and exhibitor: Manfred Vogt, Leinefelde). His dam, the performance jumping mare Calida by Calido/Rebel Z, was successful in jumping competitions up to 1.40 metres and has been awarded two stars in the Hannoveraner Jumper Breeding Programme. The virtual knockdown was made at 9,000 Euros.

The Londonderry/Weltruhm daughter Latina S, successful in the dressage arena up to medium (M\*) level, sent her first-born foal into the auction ring: St. Emilia by St. Emilion (breeder and exhibitor: Jörg Sültemeier, Trebel). The foundation mare Ackerwelle was born at Sültemeiers' breeding farm around 100 years ago and has produced a number of successful dressage and show jumping horses. St Emilia, who was born in April, cost 8,750 Euros.

The next opportunity to purchase a Hannoveraner foal directly at the source in Verden will be in 14 days on July 4. That is when the Verden Foal Spring ends. But the action continues on August 9: the 50<sup>th</sup> Elite Foal and Broodmare Auction will take place live in the Niedersachsenhalle as part of the Verden Championships.
