Foal presentation with spectators

Verden Auction Online of the foals

Verden. At the big foal auction of the Hannoveraner Verband more than 100 foals as well as a broodmare will be auctioned. Spectators can get an idea of the top-class collection in Verden: On August 7, it is planned, that the foals and their dams will be presented live in the Niedersachsenhalle. The collection will then be auctioned online in two parts on August 7 and 8, each starting at 6 p.m. CET.

The auction will start with the head number 1, Benz by Bonds/Spörcken. This liver chestnut stallion convinced at the pre-selection in all three basic gaits. His dam St.Pr.St. Sympathie, herself a former Verden auction foal, already produced a colt at the Verden foal auction in 2017, the now licensed Frankie Lee by Franziskus. The dam of head number 24, Cascadeur by Comme le père/Graf Grannus (breeder and exhibitor: Henrik Brönnemann, Burgdorf), also produced auction foals, licensed stallions and highly successful offspring. Four of her offspring have already been successfully sold in Verden, two have been licensed. These are only two examples for the secured dressage and jumping genetics of the collection consisting of more than 100 high-class foals. In addition, a brood mare will be auctioned: Salza by Stakkato/Calypso II (breeder: Rainer Schulz, Burgdorf, exhibitor: Sportpferde Tebbe, Ibbenbühen). This dark bay mare competed successful in show jumping and has spectacular full siblings: the former Celle state stud stallion Satisfaction FRH as well as the internationally successful show jumpers Argelith Sambuca and Sundari.

Hannoveraner Rhythmus

The foals will be presented live in the Niedersachsenhalle on Saturday, August 7.

Tickets are available while stocks last (Auction Office, Anne Janßen, e-mail: ajanssen@hannoveraner.com). The auction will be held online in two parts. The bidding will start at 6 p.m. CET on August, 7 and 8, on www.verdener-auktion-online.com. Bids can be submitted from August 1.
