

A little auction feeling

Verden Online Auction with live presentation

Verden. In August, we get a little closer again to the world-famous auction feeling at the Hannoveraner Verband. Although the Verden auction for foals and broodmares on August 8th and 9th will again be an online auction, the presentation of the foals on Friday, August 7th, will take place in front of the spectators of the Verden Championships.

Managing Director Wilken Treu is thus responding to the wishes of breeders and customers: "After receiving the feedback that many interested parties missed just such an inspection last time, we can now offer it again. So, register and be there is worth it". Registrations for the live presentation are accepted until July 31st by e-mail to auktion@hannoveraner.com. It's worth being quick, because spots for spectators are limited. Additionally, the presentation will be broadcasted via ClipMyHorse.TV in the livestream.

The auctioneers Bernd Hickert and Frederik De Backer will comment on the foals. Already from August 1st on the approximately 100 top-class foals can be viewed online from anywhere in the world. Nevertheless, interested parties should take the opportunity to view the foals live at the presentation on Friday afternoon, August 7th, shortly before the "bid up" on Saturday and Sunday.

The selection dates were very busy and so the Verden auction team is looking forward to a varied collection. Among the 69 foals with dressage genes, Vitalis has four foals. Eleven more foals carry the genes of the Burg Pokal winner Vivaldi through his sons Valdiviani, Valverde, Viva Gold, Vivino and V-Plus. Fusionist is also causing a sensation with his first foal crop, from which three representatives have found their way into the collection. Several times So Unique foals have already been at the top of past online auctions. In August, two more powerfully moving sons will be presented.

The collection of jumping foals is inter alia influenced by Colman: With four foals, the grey stallion, who is always attracting attention with his numerous offspring, is most frequently represented on the sire side. Altogether, the dam lines of 22 foals include participants of the Herwart-von der Decken-Show, which once again underlines the importance of this event.

Hannoveraner Rhythmus

On August 8th as well as on August 9th, dressage as well as jumping foals will be knocked down virtually. A special highlight will be added on August 9th: Hann.Pr.A. Quilea by Quantensprung/Lauries Crusador xx (breeder: Hans-Jürgen Lietz, Emmendorf) will be the only broodmare in the collection. She is in foal to the top sire Vitalis and thus brings the best conditions to start successfully in Hanoverian breeding.
