

## Hannover has a lot to offer

### Stallion licensing and stallion sales from October 23 to 26

**Verden. From October 23 to October 26, the Niedersachsenhalle will once again be opened up for young colts. More than 100 promising representatives of the year 2017 are eagerly awaited. They are the best of their age-group and will be presented to the licensing commission on the triangle, in free jumping and lunging before finding a new owner at the stallion sales on Saturday in front of a large audience.**

From Argentinus to Zirocco Blue, the jumping collection offers everything that has rank and name: Internationally proven from all breeding areas, enriched with some offspring of younger sires. Grey Top and Perigueux are particularly well represented this year. The range of dressage stallions is also varied. Here, too, proven sires such as Dancier or Vitalis, who is strongly represented at this licensing, are in the limelight, alongside stallions such as Asgard's Ibiza, who are sending offspring to Verden for the first time.

Numerous sport careers have begun at the Verden stallion licensing. A prime example is two-times World Champion D'Avie. The impressive chestnut stallion once left the Niedersachsenhalle for Denmark as a premium stallion and was celebrated in Ermelo/NED this year and last year as World Champion of young dressage horses.

Not only the announcement of the judgments will be exciting, the stallion market on Saturday will be exciting, too. The auction will be preceded by a show programme. The proclamations of the "Hannoveraner Stallion of the Year 2019" and the "Hannoveraner Mare of the Year 2019" are eagerly awaited. There will also be a reunion with numerous horses that once had their first appearance in Verden at the age of two and a half.

# Hannoveraner Rhythmus
